**September 2014**

We are pleased to invite you to be a part of our Mind & Body Awareness Expo which will be held on September 20, 2014 at the Benson Grist Mill. Admission is free and it will run from 9:00am to 5:00pm with many vendors and booths. This is a family event with activities for the children. Our intention is to create a fun, family oriented day. You may contact Mary Salazar at 435-840-0287 or Alice Christensen 435-224-2195 for more info.

With school now in session we want to reiterate the importance of traffic safety. We want to remind everyone to make sure you slow down and take extra precautions during school hours. When a school bus is stopped with flashers on, it is against the law to pass it and citations will be issued. You never know when a child is going to dart out from the front of the bus. Citations will also be issued for anyone speeding in a school zone. We make these children our priority and so should you. They are the future of our City.

Grantsville beautification had two homes nominated this month. They were Liz & Mike Smith at 103 S Hale St and Patsy Andrews Family at 9 W Vine St. Don't forget to catch your neighbors doing something great to make Grantsville shine and report them at [barbandbryan@gmail.com](mailto:barbandbryan@gmail.com) or call us at 801 694 5232.

Come support the first annual Tooele County Senior Expo on Saturday, September 27<sup>th</sup> at the Tooele Applied Technology Center (TATC). Flu shots and other immunizations will be available, as well as blood pressure and glucose readings. The Expo will run from 10 a.m. to 2 p.m. Mark your calendars now! This will be a great event for seniors and their families. Thank you for your support. (TATC address is 88 South Tooele Boulevard in Tooele).

We would like to give a big **“THANK YOU”** to Cargill Salt for the grant that was approved to help update and improve the current irrigation system to an automated system at the Grantsville City Cemetery. This will greatly improve the efficiency and lower the amount of water used. It will also save the city on the cost paid for the man hours to manually run the system. We are very appreciative for your contribution to improving Grantsville City.
